

*As a globally leading company for large scale live video projections. We have close relationships with the world's most influential brands, who trust us in solving their most challenging audiovisual projects. What sets us apart from companies specializing in projection mapping is twofold: on the technical side we continuously invest in our bespoke Onlyview software as well as driving the development of mapping and tracking technologies. On the other side it is the diversity of sites, projects and customers we work with. We are chosen partner for the Olympic Games as well as for public and private shows. Working at ETC, a leader in spectacular immersive audiovisual installations and international events, means advancing your career alongside the best talents in the industry.*

*For Paris (would not limit it to the location), we're looking for a:*

## SENIOR PROJECT MANAGER (M / F)
